

ELECTRO-MAGNETIC CLUTCHES

The PZB electro-magnetic clutches are available for small trucks, vans and pick-ups, where the gearbox PTO opening is not present.

They are available in two models with 10 and 14 Kgm of torque and in 12 and 24V versions.

For a wide range of truck models, mounting brackets are already available. In particular, the following kits are available:

- Citroen Jumper
- Fiat Ducato
- Iveco Daily
- Hyundai H100 e SR/1-H1
- Mercedes Sprinter
- Nissan Cabstar
- Opel Movano
- Peugeot Booster
- Renault Master
- Tata Pick-Up
- Volkswagen LT 35-46
- Volkswagen LT 46

For any further information, our sales staff is at your disposal.
